OCTOBER 2001

PHI DELT LAUNCHES EFFORT TO SUPPORT THE COLLEGE OF ARTS AND SCIENCES AND TO HONOR DR. REET

Join us on October 13 to kick off the fundraising efforts!

By D. Shoffner Allison '98, Professorship Committee Chairman

North Carolina Beta is embarking on an effort to endow a distinguished professorship in the College of Arts and Sciences. With the enthusiastic support of dean Risa Palm and a lead gift of \$100,000 from Garnett A. Smith '69 of Naples, Florida, Phi Delt alumni are challenged to raise an additional \$566,000 in private gifts in order to claim the \$334,000 matching gift from the State of North Carolina Distinguished Professors Endowment Trust Fund.

In honor of a beloved member of N.C. Beta, the professorship will bear the name of Matthew Mason. This will accomplish the dual goals of supporting Carolina faculty at the highest level and recognizing "Dr. Reet," who has made an extraordinary personal contribution to our chapter.

For those of us who plan to participate in the university's \$1.5 billion Carolina First Campaign, a gift to the Phi Delta Theta/Matthew Mason Distinguished Professorship will address a principal campaign priority and count toward this monumental goal. I encourage you to allocate a substantial portion of your Carolina First pledge to the Phi Delta Theta/Matthew Mason Distinguished Professorship in the College of Arts and Sciences.

Endowed professorships help to recruit, retain and support outstanding scholars/teachers of international reputation. A recent benchmark survey of five top public and private research universities with which UNC compares itself, shows that the average salary of a full professor in the College of Arts and Sciences at Carolina lags behind by more than \$14,000 per year. Private funds are essential to close this gap and make it possible for Carolina to compete for outstanding faculty.

More information regarding the professorship will follow soon. In the meantime, if you would like additional information, please call me at 336-510-6111. I hope to see you at the house on October 13.

FROM THE PRESIDENT'S PEN

By Durant Bell '02, N.C. Beta President

Greetings from the Phi Delt house!

We have just concluded another successful fall rush. While total involvement in the Greek system is declining, we were able to secure 14 new Phikeias who represent the best available from this year's freshman class. In addition, these young men are geographically diverse, which will help us in the years to come. Charlotte continues to be our stronghold; Raleigh, New York, Lincolnton, Henderson and Goldsboro make up the rest of the hometowns. We are very excited to welcome these future brothers into our house, and feel confident they will uphold the integrity and strong brotherhood of Phi Delta Theta. In addition, our goal is to instill a sense of pride for our newly refurbished house — the pledges will learn its history, both locally and nationally.

N.C. Beta continues to have a solid relationship with Phi Delt national. It has been a personal goal to improve communication with the national fraternity, and I feel we have worked hard to achieve this goal through more phone conversations, e-mails, form submissions and direct interaction with the office in Ohio. I look forward to a better relationship going forward.

On a local level, Phi Delt has reached a recent high with regard to community and campus participation. Last semester, Phi Delt participated in more than 60 hours of community service. Some of the activities included feeding the homeless, picking up trash around Chapel Hill and helping an organ-donor awareness program. In addition, we spearheaded a fundraiser to support Habitat for Humanity. I am proud of my fellow brothers for their commitment to these causes. We feel it is important to recognize how fortunate we all are and seek to pass some of our blessings on to the less fortunate.

Grades have been up compared to last year. More brothers are making the dean's list now than during any other year in the past decade. In addition, our house GPA continues to climb, reaching an impressive 2.96 this past semester. We expect to improve on our scholarship program within the house to reward brothers for their hard work in the classroom.

As a final word, I would like to invite you to contact me at 914-968-1221 (or by mail at 917 Greenwood Rd., Chapel Hill, NC 27514) if you have any questions or comments.

BACK OF THE HOUSE

By George E. Holt Jr. '58

This is the first in a series of articles about facility management at the house throughout the year. Bob Page and I thought many of you might be interested in what's being done to assure that the house stays in tip-top shape, and in information on the food and environmental services offered during the school year. Also included is an overview of the comprehensive maintenance program that has been in place for the last three semesters.

Before the house reopened in August '98, I discussed with Steve Bell '67, Bob Page '52 and other board members the need for a professional food-service management company during the school year. Since that time, a food-service contract has been in place, with John Jenkins as our chef. He has spoiled the guys with great food and service! In addition, his very nice wife, Jill, takes care of keeping the house clean during the week and special weekends, and helps John with catering events on football weekends and at other times. (She is likewise a good cook!)

They are a great couple (see picture) and a wonderful asset to the Phi Delt house. If you have not met them, please introduce yourself the next time you are there. For the past two summers (and during Christmas break), they have made repairs, painted, waxed floors, washed windows and blinds, disposed of abandoned room carpets and furniture, cut the grass, pruned the shrubs, spread mulch and made sure the house looked as good as when it

reopened in August '98.

You can be certain that as long as these programs continue, you are receiving a good return on your contributions to the 1998 renovation project.

The house preventive maintenance program assures that all safety equipment (i.e., fire alarms, sprinkler systems, kitchen-hood fire-extinguishing system) are inspected every six months by a qualified service company. In addition, written inspections are conducted by me every week school is in session, and any problems discovered are repaired immediately (i.e., replacing light bulbs, reinforcing closet clothes bars, tightening loose door locks or dead bolts, etc.) or a vendor is called in to make repairs beyond my capability. My goal again is to make sure that the house remains in good condition, hopefully resulting in having no major repairs throughout the year.

Finally, to forge a strong communication link with the undergraduates, I meet with president Durant Bell every Friday to discuss all issues relating to food, housekeeping, maintenance and other topics as needed. I enjoy working with Durant (as well as with other brothers), as he sets a perfect example for positive and effective leadership.

If you have any suggestions or would like more information on our programs, please e-mail me at g.holt@ix.netcom.com. Thank you.

Also had a hole-in-one (my first) and two eagles last year. Brother **Gene Gunter '55** and his friend, Chiko, visited us for two days in Boca Grande. We played golf and caught up on lots of memories.

Bud Hargrave '56 (3397 Old Salisbury Rd., Lexington, NC 27295) The Hargraves, "B.C." and Bud, linked up with Eve and **Sherwood Smith '56** in October 2000 for a trip to the Emerald Isle. Pictured (L-R): Sherwood, Eve, B.C. and Bud at The Inn Between in Adare County, Limerick, Ireland.

Richard M. Adams '70 (9 Montcrest Dr., Birmingham, AL 35213; radams@autotec.com) The Class of 1970 is universally recognized as the best to ever live at 304 South Columbia. The 20 Phikeias of that class won Greek Week, Best Pledge Class and the annual campus beer chugging contest. We can be remembered as the last graduates to live in the original house and the last class for which Dr. Reet worked upstairs gently getting us out of bed and on to 8:00 a.m. class as only he could do. Shadeena, the cook, was fraternity sweet heart as UNC had just begun accepting females our freshman year. We gathered in Chapel Hill on December 1, 2000, to honor and celebrate our pledge brother, **Emmet Stovall '70**, one of those unique Phi characters that made those short four years so memorable. Emmet died a few weeks after the celebration and though he wasn't there in person, he was a big part of all the old stories and lies told that night. Ten of the 20 pledges could make it to relive the 48-hour siege of the house (long noted as the best pledge raid ever) and to remember road trips to Hollins, watching "Andy of Mayberry," intramural championships, Louisville for the NCAA, You're a good egg Dr.
